

Electric and Propane Forklifts

Sit Down Propane

The fastest and most powerful of forklifts is definitely the propane powered lift. These provide the operator with fast travel speeds and unlimited work cycles. These trucks are ideal for long and demanding hours of use and handling heavy loads.

Reconditioned and Rental Units Available!

Sit Down 3 & 4 Wheel Electric

These lifts are designed for a wide array of applications. These trucks are extremely maneuverable, quiet and energy efficient. They are capable of working in as little as 11' aisles and are an excellent choice for going in trailers, as they provide high visibility and exceptional handling.
